"CELEBRATION OF INTERNATIONAL TIGER DAY"

PG AND RESEARCH DEPARTMENT OF ZOOLOGY
ORGANIZED A SPECIAL LECTURE ON
"TIGER CONSERVATION AND ITS CHALLENGES"
Held on 28th JULY 2023

The PG and Research Department of Zoology, Nehru Memorial College (Autonomous), Puthanampatti organized a special lecture on "Tiger conservation and its challenges" on 28th July 2023 between 10.00am and 12.00pm. The programme was organized in connection with Celebration of International Tiger Day to be held on 29th July every year. The main aim of this special lecture was to give awareness about Tiger and their conservation to the students and staff of various departments of our college. It also provided a greater opportunity for interacting with the students and the faculty members to share idea on Tiger and its habitat conservation.

More than 75 Under Graduate and Post Graduate students from Zoology and other departments, research scholars, staff members of zoology and other departments participated in this special lecture programme. **Er. Pon Balasubramanian, President, Shri. Pon. Ravichandran, Secretary**, Nehru Memorial College, Puthanampatti, graced the function. **Dr. A. Venketasan, Principal**, Nehru Memorial College delivered the inaugural address and encouraged the participants. **Dr. P. Neelanarayanan, Associate Professor and Head**, Department of Zoology welcomed the gatherings and provided all logistic support. **Dr. M. Meenakshisundaram, Co-ordinator** felicitated the programme.

Dr. N. Ramesh, Assistant professor of Zoology, Nehru Memorial College delivered the special lecture on Tiger Conservation and its challenges among students and staff. The lecture based on the number of tigers existed in the past and present and its problems were explained. Tiger habits must be expanded and protective measures such as ban on hunting and poaching, not allowing the scrub cattle into the forests, exotic weed species should not be allowed and controlled, he added. He further informed that the Tiger is present in the apex of the ecosystem, controlling the forest ecosystem and maintaining the climate change. As many as 40,000 tigers decimated over a century due to humans indiscriminate activities. Keeping the above points in

view, on 1st April 1973 the Project Tiger was launched in India. That time we had only 240 tigers in the wild.

At present i.e., 2023 India possess 74 Tiger Reserves with tiger population of 3,167. It is 75% of the world tiger population in the wild. He also informed, People's Participation is important in tiger conservation and one should not buy tiger skin, claw, teeth and bone in black market. According to the Wildlife (Protection) Act 1972 Tiger is declared as an endangered species of IUCN categories. We need more and more scientific research to improve the tiger habitat to safe guard the charismatic species among the cat family.

Dr. N. Ramesh, Assistant Professor of Zoology organized the programme. Dr. C. Renuka, Assistant Professor of Zoology proposed vote of thanks. Ms. K. Hemapriya, II M.Sc Zoology acted as an anchor for the special lecture programme.

Dr. P. Neelanarayanan, Associate Professor and Head, Department of Zoology, Nehru Memorial College, proposed welcome address

Inaugural Address by Dr. A.Venkatesan, Principal, Nehru Memorial College

Felicitation by Dr. M. Meenakshisundaram, Co-ordinator, Nehru Memorial College

Special lecture on "Tiger Conservation and its Challenges" given by Dr. N. Ramesh, Assistant Professor, Department of Zoology, Nehru Memorial College
